

The Joseph Palombo Center for
Neuroscience and Psychoanalytic Social Work
OF THE INSTITUTE FOR CLINICAL SOCIAL WORK

FALL 2017 CONFERENCE

“Shame and the Traumatic Impact of Self-Deficits”

Presented by Joseph Palombo, MA

Afternoon Session

Panel on Clinical Applications:

Case Presentation: Jannira Roman, LCSW

Discussant: Virginia Barry, MD

Discussant: Josh Kellman, MD

Saturday, November 11, 2017

from 9:00 AM to 4:00 PM

at East Bank Club

500 N Kingsbury Street

Chicago, IL 60654

“Shame and the Traumatic Impact of Self-Deficits”

Presented by Joseph Palombo

This conference addresses the problems that confront patients with neuropsychological impairments, such as ADHD, dyslexia, executive function disorder, and other brain-based disorders. Some can often feel intense shame and humiliation. At times, the impact of these self-deficits can be traumatic and lead to dissociative responses. The presenter will explore the defenses that they develop that often lead to dysfunctional feelings, thoughts, and behaviors. For therapists, the challenge is to find ways of responding to such patients and helping them deal with their issues at the level of multiple domains of self-experience.

Educational Objectives:

- Participants will learn about the cognitive, emotional and social problems faced by patients with neuropsychological deficits, such as ADHD, dyslexia, executive function disorder, and other brain-based disorders.
- The presentation will fill a gap in participant's knowledge about these conditions and the impact they have on patients' sense of self. It will highlight the traumas that these patients suffer from others' criticism and assaults.
- Participants will acquire a repertoire of interventions and a set of practice based activities that will enhance their patients' ability to cope with their life tasks.

Program

- 8:00 Registration and Breakfast
- 9:00 Welcome: Michelle Taylor, President
- 9:15 Introduction of Speaker:
Andy Suth
- 9:30 Joseph Palombo
*"Shame and The Traumatic
Effects of Self-deficits"*
- 10:30 Break
- 11:00 Joseph Palombo (*continues*)
- 12:00 Audience Q&A
- 12:30 Lunch
- 1:30 Moderator: William Gieseke
- 1:45 Case Presentation: Jannira Roman
- 2:30 Discussant: Virginia Barry
- 3:00 Discussant: Josh Kellman
- 3:30 Audience Q&A
- 4:00 End of Conference

Event Registration

Registration: \$90

Continental breakfast, Lunch, 6 CEUs, and Complimentary copy of Palombo's book, *Neuropsychodynamic Treatment of Self-deficits: Searching for Complimentary*.

About the Participants

Joseph Palombo, MA.

Joseph Palombo is a clinical social worker who is Founding Dean and Faculty Member of the Institute for Clinical Social Work, Chicago and the Director of its Joseph Palombo Center for Neuroscience and Psychoanalytic Social Work. Among the honors he has received are an Honorary Membership in the American Psychoanalytic Association; the Pearl H. Rieger Award, Rush Neurobehavioral Center, for having made a significant contribution to the lives of children with neurobehavioral issues; the Edna Reiss-Sophie Greenberg Davis Chair, Reiss-Davis Child Study Center. He is the co-author of J. Palombo, H. Bendiczen, and B. Koch. Guide to psychoanalytic developmental theories. NY: Springer Press, and the author of Nonverbal Learning Disabilities: A clinical perspective. W. W. Norton, Learning disorders and disorders of the self in children and adolescents. W. W. Norton., and Neuropsychodynamic Treatment of Self-deficits: Searching for complementarity. NY: Routledge: Relational Perspectives Series.

Virginia Barry, M.D.

Dr. Barry completed her psychiatric residency at Michael Reese and her psychoanalytic training at the Chicago Institute for Psychoanalysis. She is in private practice in Chicago, seeing patients mainly in psychoanalysis or psychotherapy. Dr. Barry has taught continuously in various settings including the Institute for Psychoanalysis where she is on the faculty, the Psychiatry residency program at the University of Illinois, and other venues. Since 1987, she has been exploring the interface between psychoanalytic models of the mind and neuroscience. She has taught a class titled "Mind & Brain" to the fourth-year candidates at the Institute for Psychoanalysis. Her interest is in considering how knowledge of brain organization informs what we do clinically. Dr. Barry has just published a book titled Scratch and Sniff Proust that considers the emotional and neurological underpinnings of the Proust Phenomenon. (*And yes, it is a scratch and sniff book.*)

Josh Kellman, M.D.

Dr. Kellman completed his adult psychiatry residency at the University of Michigan, his child psychiatry fellowship at the University of Chicago, and his psychoanalytic training at the Chicago Institute for Psychoanalysis. Dr. Kellman is on the child psychiatry faculty at the University of Chicago for the past twenty years, where he teaches and supervises adult and child psychiatry residents. Dr. Kellman is on the faculty at the Chicago Institute for Psychoanalysis, where he teaches the Mind and Brain course with Dr. Barry as well as a course on Hierarchical Models. His areas of interest include neuroscience and psychoanalysis, early development, music and art as they relate to early development, play, and personality disorders.

Jannira Roman, LCSW.

Jannira Roman Laguer earned a Master's Degree in Social Work at The State University of New York at Stony Brook, and is currently a doctoral student at the Institute for Clinical Social Work in Chicago. She is a psychotherapist for the VET Center Readjustment Counseling Services in Arecibo, Puerto Rico, where she has dedicated her time and efforts in treating military service members who have experienced trauma. The focus of her academic work is psychodynamic treatment with a military specialization. She has certifications and trainings in Eye Movement Desensitization and Reprocessing, Prolonged Exposure, and Seeking Safety. In addition, she was a professor at the Pontifical Catholic University of Ponce in Puerto Rico. Currently, she has been working on integrating a neuro-psychodynamic approach in her clinical treatment with the veteran population.
